LOKADOR Hinge &
Miscellaneous

Challenge

A new school for social development cum residential home for girls at Choi Wan Road and Jordan Valley, Kwun Tong. School facilities including 18 classrooms (270 school places), special rooms and other ancillary facilities; residential home facilities for 202 places, including bedrooms, dining hall and other ancillary facilities.

Solution

Due to the special security needs and safety requirement from the client, our team examined all the previous projects with similar requirements. LOKADOR hinge & Miscellaneous and Yale EN lock are commonly used in most academy and school projects. For higher level of security on the residential building, we provided ASSA cylinder and ASSA ABLOY closer to the client. We believed those products are able to satisfy both academic and residential needs as well as remain competitive in term of pricing.
