

Singha Complex

Project Fast Fact

Location

Bangkok, Thailand

Complete year

2018

Architect

D103

Contractor

ITD (Italian-Thai Development)

Owner

Singha Estate

Feature products

LOCKWOOD
Architectural
Hardware

Challenge

HAFELE approached to the project with full range of products both Architectural Hardware and Furniture Fitting. We did the equivalent specification and used LOCKWOOD as a flagship brand. After we could show the better products quality above HAFELE for the same budget, finally we got the Architectural Hardware and Master Key. HAFELE got only Furniture Hardware.

Solution

We propose LOCKWOOD Architectural Hardware with the better quality and Master Key System to win over HAFELE for the project.
