Samsung C&T  
Corporation

**Feature products**  
DDL and Architectural  
hardware

## Project Details

Freehold Mixed Development in the charms of Central Business District, Onze @ Tanjong Pagar is a sophisticated development to express its unique and stunning urban living with a touch of quiet greenery within one of Singapore's well loved districts.

The mixed-use development will combine 890,000 square feet of office space, 100,000 square feet of retail, a park with more than 200 hotel rooms and 181 residences.

## Solution

Mixed development is often subject to complicated key management system. To meet end user expectation, ASSA ABLOY Singapore deploy a dedicated team working closely with the owner rep, project architect and contractor, meeting their needs together in planning the master-keying schedule and handing over in phases smoothly due to different TOP phasing.
