Floor Mount Base

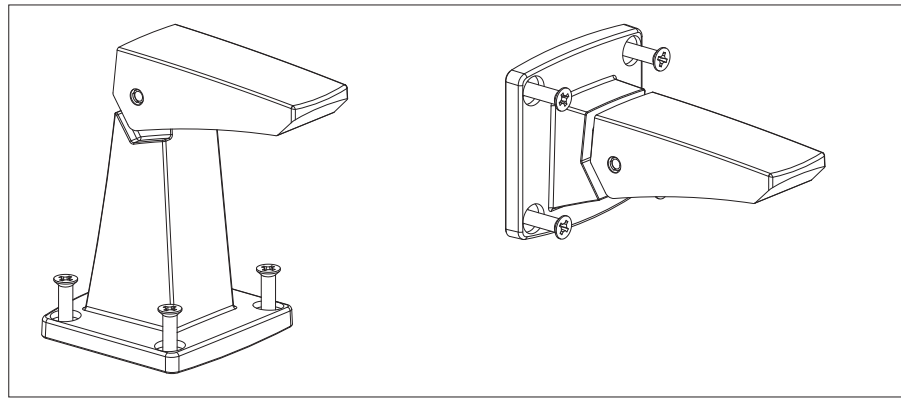

Strike

1. Fixing Base

- Check strike will fit on door before fixing
- Fix base to floor or wall

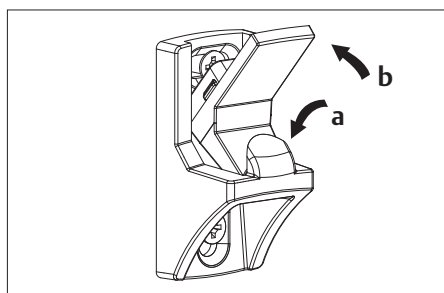

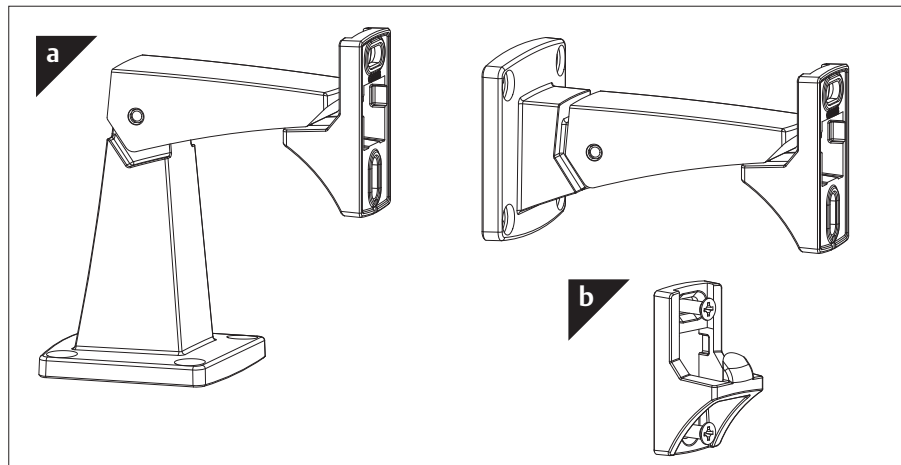

2. Fixing Strike

a) Position strike

- See *Installation Tips* for correct strike position
- Mark screw holes on door

b) Fix strike

- Drill strike screw holes
- Fix strike in place

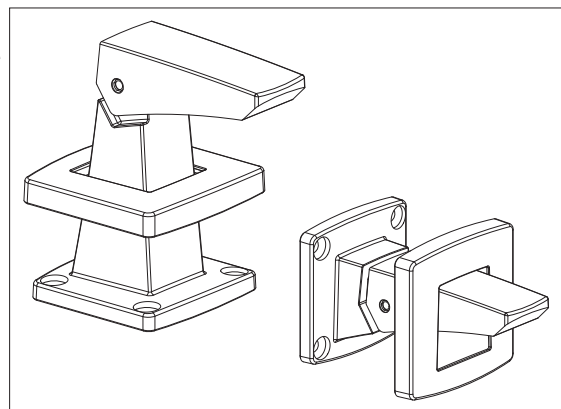

3. Fitting Rubber Bumper

- Place rubber bumper into recess (a)
- Push bumper down and back (b)

4. Fitting Screw Cover

- Press screw cover over base

Installation Tips

- Keep arm level when installing the strike (at rest position)

Adjust if necessary

To adjust strike up/down

- Remove **top** strike screw
- Loosen bottom screw and adjust
- Re-drill **top** screw hole and fix in place

To adjust strike side to side

- Remove **bottom** strike screw
- Loosen top screw and adjust
- Re-drill **bottom** screw hole and fix in place
