

The world's favourite lock

Yale[®]

Securiturn™ removable thumbturn

The Securiturn™ is a convenient, safe and secure removable thumbturn for double cylinder locks, which can be easily removed when the building is secured, using a release key. The innovative design allows new and existing double cylinders to have the everyday convenience of the thumbturn which can be removed when the premises are unoccupied.

Features

- Easy to operate
- Simple but effective security
- Incorporates safety when utilising double cylinder locks
- Thumbturn with 'Red Safe Plug' conforms to NZ Building Act "Means of Escape" clause 7.2.2
- Precision design and quality construction
- Euro Cylinder Note: A feature of Securiturn™ when used in Euro Cylinders is that key access from outside will be prevented by turning Securiturn™ from the correct vertical position. Consequently, do not leave Securiturn™ in the inside cylinder of the main access door as key entry could be prevented
- New Zealand made

Options

- Provided complete with release key
- 5 pin and 6 pin cylinders
- Plated finishes include: polished brass and satin chrome
